B. Enter under each well class the number of wells

EPA Form 7520-2A (1-99) Reverse

enforcement action against a violation) this year to date. These totals track the percentage of the injection well universe that returned to compliance through an enforcement action(s) each year. Enter a well only once each year.

#### Section VIII. USDW Contaminations

Enter under each well class the number of times a well in noncompliance has allegedly contaminated an underground source of drinking water (USDW) this year to date.

#### Section IX % MIT Violations Resolved in 90 Days

Enter under each well class the percentage of MIT violations (identified in Section V., under "Mechanical Integrity") resolved within 90 days.

In order to calculate the percentage:

1. Add up the total number MIT violations to date whether or not they were identified in this reporting period. e.g., 10.
2. Add up the number of these violations to date that were resolved in 90 days or less. e.g., 5.
